EXP:

IMMUNINE 1200 IU

Human Coagulation Factor IX
1 vial with powder for solution for injection contains 1200 IU human coagulation factor IX.
1 ml of solution contains approximately 120 IU human coagulation factor IX, when reconstituted with 10 ml of water for injections.
Excipients:
Powder: Sodium chloride, Sodium citrate
Solvent: Sterilised Water for Injections

Slow **(max. 2 ml/min)** intravenous injection.
Intravenous use. For single use only. Use reconstituted solution immediately (within 3 hours). Stored between 2 – 8°C. Do not freeze. Keep the powder vial in the outer carton in order to protect from light. Product may be stored at room temperature (up to 25 °C) for a period of 3 months. Discard residues.
Keep out of the reach and sight of children.
