What Durio Cough Relief Syrup 20mg/ml is used for

As an expectorant for the symptomatic relief of cough due to colds.

How Durio Cough Relief Syrup 20mg/ml works

Guaifenesin is a substance that helps loosen and liquefy mucus. It works by stimulating respiratory tract secretions and reduces mucus viscosity, facilitating the removal of mucus from the chest by coughing, and making it easier to breathe.

Before you use Durio Cough Relief Syrup 20mg/ml

- *When you must not use it*

Pregnancy and lactation

There is insufficient data available on the use of Guaifenesin during pregnancy and breastfeeding.
Durio Cough Relief Syrup 20mg/ml can be used if the benefits outweigh the risks.
Ask your doctor or pharmacist for advice before taking Durio Cough Relief Syrup 20mg/ml.

- *Before you start to use it*

Tell your doctor if you have hypersensitivity to Guaifenesin and other ingredients listed in the leaflet.

- *Taking other medicines*

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use Durio Cough Relief Syrup 20mg/ml

- *How much to use*

Adults : 10ml-20ml or 2-4 teaspoons
6-12 years : 5ml-10ml or 1-2 teaspoons
2-6 years : 2.5ml-5ml or ½-1 teaspoon
To be taken every 4 hours or use as directed by your doctor.

Do not use in children less than 2 years of age without supervision of doctor.

- *When to use it*

Use as directed by your doctor or pharmacist.

- *How long to use it*

Continue taking Durio Cough Relief Syrup 20mg/ml for as long as your doctor recommends.

- *If you forget to use it*

Take the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to take the medicine and skip the missed dose. Do not take a double dose to make up for the missed dose.

- *If you use too much (overdose)*

If you have taken too much of this medicine, nausea and vomiting may occur.
Contact your doctor immediately or go to the Emergency Department of your nearest hospital if you think you or anyone else may have taken too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

While you are using it

- *Things you must do*

Take your medicine exactly as your doctor has told you.

Tell the doctor, dentist and pharmacist treating you that you are taking Durio Cough Relief Syrup 20mg/ml.

- *Things you must not do*

Do not take any new medicines without consulting your doctor or pharmacist.

Do not give Durio Cough Relief Syrup 20mg/ml to anyone else, even if they have the same symptoms or condition as you.

- *Things to be careful of*

May cause drowsiness in some cases. Refrain from activities requiring alertness such as driving vehicle, or operating machine if affected.

If you are about to have carcinoid syndrome tests, tell your doctor that you are taking this medicine. It may interfere with the results of these tests.

Side effects

Side effects of Durio Cough Relief Syrup 20mg/ml usually are gastro- intestinal discomfort, nausea, vomiting, dizziness, diarrhea, headache and rash (including urticarial).

Visit your doctor or pharmacist immediately if you experience any side effects after taking this medicine. You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my (Consumer → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI).

Storage and Disposal of Durio Cough Relief Syrup 20mg/ml

- *Storage*

Store below 30°C. Protect from light and moisture.
Keep out of reach of children.

- *Disposal*

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
