1 pre-filled syringe of 1 ml contains 40,000 international units (IU) corresponding to 336.0 micrograms epoetin alfa.
Excipients: sodium dihydrogen phosphate dihydrate, disodium phosphate dihydrate, sodium chloride, glycine, polysorbate 80, hydrochloric acid (for pH-adjustment), sodium hydroxide (for pH-adjustment), and water for injections. See leaflet for further information.
For subcutaneous and intravenous use.
Read the package leaflet before use. Do not shake.
Store and transport refrigerated (2°C - 8°C). Do not freeze.
Keep the pre-filled syringe in the outer carton in order to protect from light.
Keep out of the sight and reach of children.
Medicinal product subject to medical prescription.
Binocrit® has been developed as a similar biological medicinal product to Eprex®.
