Flexbumin 20%
Albumin (Human), USP, 20% Solution

50 mL

GALAXY Single Dose Container

Each 50 mL contains: 10 g albumin from venous plasma in buffered diluent and is osmotically equivalent to 200 mL of normal human plasma. It has been stabilized with sodium caprylate and N-acetyltryptophan and heated for 10 hours at 60°C. The sodium content is 145 ± 15mEq/L.

Contains no preservative.

Dosage and Administration: See accompanying package insert.

Storage: Store at room temperature, not to exceed 30°C (86°F). Protect from freezing.

The patient and physician should discuss the risks and benefits of this product.

For intravenous administration only.

Rx only

Cautions: In patients with marked dehydration, additional fluids must accompany or follow administration of this product. Check for minute leaks by squeezing bag firmly. If leaks are found, discard bag as sterility may be impaired.

Do not use if turbid.

Do not begin administration more than 4 hours after the container has been entered.

Discard partially used container.
