Each gram contains:
0.625 mg conjugated estrogens.
USUAL DOSE: Intravaginally or topically – 0.5 to 2 g daily.
Dosages from 0.5 – 2 g are clearly marked on applicator.
See package insert for complete directions for use.
Store below 25°C.
Preliminary studies conducted by the Health Products and Food Branch have demonstrated that PREMARIN cream may react with the latex rubber of certain mechanical barrier devices used for prevention of sexually transmitted diseases and pregnancy (diaphragms and condoms).

Instructions for use of applicator

1) Remove cap.
2) Screw nozzle end of applicator onto the tube.
3) Gently squeeze tube to force cream into the barrel to provide the prescribed dose.
4) Unscrew applicator from tube.
5) Place the applicator into the vaginal opening.
6) To release medication, press plunger downward.

To cleanse: Pull plunger out from barrel. Wash with mild soap and warm water. DO NOT BOIL.

premarin®
(conjugated estrogens)
vaginal cream
in a nonliquefying base

14 g
