Ingredient(s):
Each ml contains:
Hyoscine N-Butylbromide …… 20mg

Indication(s):
Fucon Solution for Injection 20mg/ml is indicated in acute spasm, as in renal or biliary colic, in radiology for differential diagnosis of obstruction. It also indicated to reduce spasm and pain in pyelography, and in other diagnostic procedures where spasm may be a problem.

Dosage & Administration(s):
Fucon Solution for Injection 20mg/ml may be administered by Intramuscular or intravenous injection.

Adults
One ampoule (20mg) should be given IM or IV, repeated after half an hour if necessary. Intravenous injection should be performed 'slowly' (in rare cases a marked drop in blood pressure and even shock may be produced). When used in endoscopy this dose may need to be repeated more frequently. Maximum daily dose of 100mg.
Not recommended for children under 12 years old.

Storage Condition(s):
Store at temperature below 30°C. Protect from light and moisture.
Keep medicine out of reach of children. *Jauhkan daripada kanak-kanak.*
