What Wellmex Hydrogen Peroxide Solution is used for

- It is used as first aid in the treatment of cuts, fresh wounds and abrasions.
- To remove dressing from wounds.
- As gargle or mouthwash.

This product cannot be swallowed.

How Wellmex Hydrogen Peroxide Solution works

Hydrogen peroxide is used as a disinfectant. When put on cuts, hydrogen peroxide will bubble or foams. These foaming helps to clean the wound, remove dead cells and reduce bacteria. When use as gargles, hydrogen peroxide help to treat minor irritation due to its antiseptic properties.

Before you use Wellmex Hydrogen Peroxide Solution

-When you must not use it

- Do not use it if you are allergic to Hydrogen Peroxide or any of the other ingredient.

-Before you start to use it

- Please consult your doctor or pharmacist if you are pregnant, planning for pregnancy or breast-feeding before using this product.

-Taking other medicines

- Tell your doctor if you are taking any other medicines, including any that you buy without prescription from a pharmacy, supermarket or health food shop.

How to use Wellmex Hydrogen Peroxide Solution

-How much to use

- In the treatment of cuts, fresh wounds and abrasions (First Aid) - Dilute Wellmex Hydrogen Peroxide solution with equal volume of water and apply on linen or cotton wool to arrest bleeding and disinfect the affected area. Wait for awhile and gently fix the dressing in position with bandage or a strip of adhesive plaster.
- To remove dressing from wounds – Dilute Wellmex Hydrogen Peroxide solution with an equal volume of water. Thoroughly soak the dressing with this solution and leave for several minutes before removing the dressing from the wound.
- For gargle or mouthwash – mix one teaspoon of Wellmex Hydrogen Peroxide solution in half a glass of water. Gargle as when necessary.
- Catarrh - Mix one teaspoon of Wellmex Hydrogen Peroxide solution with a quarter of a tumblerful of water. Sniff the mixture solution into the nose and expel the solution from the nose.

-When to use it

- Use as directed by your doctor or pharmacist.

-How long to use it

- Use Wellmex Hydrogen Peroxide Solution for the duration as your doctor recommends.

-If you forgot to use it

- Consult your doctor or pharmacist on what you should do if you forgot to use it.

-If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else have ingested this medicine, or have used too much of this medicine, or have been exposed to too much undiluted solutions of this medicine. Do this even if there are no signs of discomfort or poisoning. Urgent medical attention may be needed

While you are using it

-Things you must do

- Tell your doctor if your condition does not improve or if it worsens. If you think you may have serious medical problem,
  seek immediate medical attention.

-Things you must not do

- Do not give Wellmex Hydrogen Peroxide Solution to anyone else, even if they have the same symptoms or condition as you.
- Do not use Wellmex Hydrogen Peroxide solution after the expiry date.

-Things to be careful of

- It is dangerous to inject Wellmex Hydrogen Peroxide Solution.

Side effects

Strong and undiluted solutions of Wellmex Hydrogen Peroxide solution may produce irritating "burn" on the mucous membrane (areas of the inner skins such as mouth) but the irritation disappears in about an hour.

You may report any side effects or adverse reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers→Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]
