What Dyna C 100 Tablet is used for
Indicated as a health supplement.

How Dyna C 100 Tablet works

Ascorbic Acid is used to make collagen and materials in body cells. It is also useful in the absorption of iron from the gastro-intestinal tract and in the treatment of certain blood disorders.

Before you use Dyna C 100 Tablet

- When you must not use it
- If you have an allergy (hypersensitivity) to any ingredient in this product.

Pregnancy and lactation

Ask your doctor or pharmacists for advice before taking Dyna C 100 Tablet.

- Before you start to use it

- Tell your doctor if you have:
- Excessive urinary excretion of oxalate (substance related to kidney stone)
- Phenylketouria (PKU)

- Taking other medicines

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use Dyna C 100 Tablet

- How much to use

Children (4-12 years and above): 2-4 tablets once daily after meals or as directed by doctor or pharmacist.

The directions given may differ from the information contained in this leaflet. If you do not understand the instructions on the label, ask your doctor or pharmacist for help.

When to use it

Use as directed by your doctor or pharmacist.

- How long to use it

Continue taking Dyna C 100 Tablet for as long as your doctor recommends.

- If you forget to use it

Take the missed dose as soon as you remember. If it almost time for your next dose, wait until then to take the medicine and skip the missed dose. Do not take a double dose to make up for the missed dose.

- If you use too much (overdose)

Overdosage of Ascorbic Acid is usually followed by excessive urination and diarrhoea.

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have taken too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

While you are using it

- Things you must do

Take your medicine exactly as your doctor has told you.

Tell the doctor, dentist and pharmacist treating you that you are taking Dyna C 100 Tablet.

- Things you must not do

Do not take any new medicines without consulting your doctor or pharmacist.

Do not give Dyna C 100 Tablet to anyone else, even if they have the same symptoms or condition as you.

- Things to be careful of

Driving and using machines

This medicine may affect your ability to drive or use machines. If the tablets make you feel sick, dizzy or tired, or give you a headache, do not drive or use machines and contact your doctor immediately.

Side effects

Ascorbic Acid is usually well tolerated. Large doses may cause diarrhoea and the formation of kidney stone. Doses of 600 mg or more daily increase production of urine.

Consult your doctor or pharmacist if you experience any side effects after taking this medicine. You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my (Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)).

Storage and Disposal of Dyna C 100 Tablet

- Storage

Keep out of reach of children
Protect from light
Store in dry place below 30°C
Keep the container tightly closed

- Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
