

Strepsils Warm Ginger Lozenges

Amylmetacresol 0.6mg;
Dichlorophenylcarbinol 1.200mg

Product Description

A red to purple coloured circular lozenge with a characteristic taste of warm plum and ginger. Strepsils brand icon is intagliated on both sides.

Pharmacodynamics

Dichlorophenylcarbinol and amylmetacresol have antiseptic properties.

Pharmacokinetics

Pharmacokinetically the active ingredients, when present in a dosage form such as a lozenge, will exert their desired effect locally on the oropharynx.

Indications

For the symptomatic relief of mouth and throat infections.

Recommended Dose

For oral administration

Adults and children (over 6 years old): One lozenge to be dissolved slowly in the mouth every 2-3 hours up to a maximum of 12 lozenges in 24 hours.

Elderly: There is no need for dosage reduction in the elderly.

Not suitable for children under 6 years.

Route of Administration

Oral

Contraindication

Hypersensitivity to any of the ingredients.

Warning and Precautions

Keep all medicines out of the reach and sight of children.

Patients with rare hereditary problems of fructose intolerance, glucose-galactose malabsorption or sucrose-isomaltase insufficiency should not take this medicine.

Effects on ability to drive and use machines

No adverse effects known.

Interactions with other medicaments

No clinically significant interactions are known.

Pregnancy and Lactation

The safety of Strepsils Warm Ginger Lozenges during pregnancy and lactation has not been established, but is not considered to constitute a hazard during these periods.

Side Effects

Occasional hypersensitivity reactions.

Symptoms and treatment of Overdose

Overdosage should not present a problem other than gastrointestinal discomfort. Treatment should be symptomatic.

Storage Conditions

Do not store above 30°C
