What Woodward's Gripe Water Oral Solution is used for

Relief from wind pains, digestive upsets especially during teething period.

How Woodward's Gripe Water Oral Solution works

This medicine is an antacid and antiflatulent product. It is used to relieve griping pain or waves of severe abdominal pain (infant colic) in babies.

Before you use Woodward's Gripe Water Oral Solution

- When you must not use it

Do not give to a baby:

- Who is allergic to any of the ingredients in this product
- Who has kidney problems

- Before you start to use it

This medicine contains hydroxybenzoate derivatives which may cause allergic reactions (possibly delayed).

- Taking other medicines

Tell your doctor if your baby/child is taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use Woodward's Gripe Water Oral Solution

- How much to use

One to six months old - one teaspoonful (5ml)

Six months to two years old - two teaspoonfuls (10ml)

Two years and above - two to three teaspoonfuls (10-15ml)

These doses may be given during or after each feed up to 4 times in 24 hours.

- When to use it

Use as directed by your doctor or pharmacist.

- How long to use it

Continue taking Woodward's Gripe Water Oral Solution as long as your doctor recommends.

- If you forget to use it

Consult your doctor or pharmacist on what you should do if you forget to use it.

Take the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to take the medicine and skip the missed dose. Do not take a double dose to make up for the missed dose.

- If you use too much (overdose)

Speak to a doctor or pharmacist at once.

While you are using it

- Things you must do

Take the medicine exactly as your doctor has told you.

Tell all the doctors, dentists and pharmacists treating your baby/child that your baby/child is taking Woodward's Gripe Water Oral Solution.

- Things you must not do

Do not stop taking the medicine unless advised by your doctor.

Do not take any new medicines without consulting your doctor.

Do not give Woodward's Gripe Water Oral Solution to anyone else, even if they have the same symptoms or condition as you.

- Things to be careful of

If this medicine make your baby/child feel sick, dizzy or tired, or give you a headache, contact your doctor immediately.

This medicinal product contains 1.4mmol (or 32.2mg) sodium per dose. To be taken into consideration by patients on a controlled sodium diet.

If you have been told by your doctor that you have an intolerance to some sugars, contact your doctor before taking this medicinal product.

This medicine contains hydroxybenzoate derivatives (E215, E217 and E219) which may cause allergic reactions (possibly delayed).

Side Effects

WOODWARD'S GRIPE WATER ORAL SOLUTION

Sodium bicarbonate/Terpeneless Dill Seed Oil (52.5mg/5ml/2.3mg/5ml)

If your baby/child experiences any side effect after using this product, stop using it and seek medical advice.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers -> Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]
