What Salonpas® Pain Relieving JET SPRAY is used for

For external use only.

Salonpas® Pain Relieving JET SPRAY is used for relief of aches and pains associated with muscle fatigue, muscle pain, backache, stiff shoulder, joint pain, strains, sprains, bruises, arthritis.

How Salonpas® Pain Relieving JET SPRAY works

The main pharmacological effects of Salonpas® Pain Relieving JET SPRAY result from the analgesic property of Methyl salicylate, and from the effect of counterirritants, Methyl salicylate and l-Menthol.

Before you use Salonpas® Pain Relieving JET SPRAY

- When you must not use it

Do not use on wounds or damaged skin.

Do not use if you are allergic to aspirin or any ingredient of this product.

Do not use on children under 2 years of age.

Do not use during pregnancy or when breastfeeding.

- Before you start to use it

Ask a doctor before use, if you are allergic to external application product.

- Taking other medicines

Warning for Methyl Salicylate:

This product contains methyl salicylate and when applied to the skin, can be absorbed through the skin into the blood.

For patients taking warfarin, excessive application may increase the chances of bleeding. If you are taking warfarin, please consult your doctor before using this product.

How to use Salonpas® Pain Relieving JET SPRAY

- How much to use

Adults and children 12 years of age and above: apply to affected area not more than 3 to 4 times daily.

Children 2 to 12 years of age: consult a doctor.

- When to use it

Clean and dry the affected area. Shake the can very well before use. To avoid frostbite, hold the can 10 cm away from the skin, and spray each affected area for no longer than 1 second.

- How long to use it

Stop use and ask a doctor if conditions worsen.

Stop use and ask a doctor if symptoms persist for more than 7 days.

Stop use and ask a doctor if symptoms clear up and occur again within a few days.

- If you forget to use it

Use as soon as you remember. But do not use it twice to make up for missed doses. If in doubt, seek advice from your doctor or pharmacist.

- If you use too much (overdose)

Unusual symptoms such as nausea or vomiting may occur. In the case of using a large amount of drug, and unusual symptoms occur, discontinue use, wash the application area thoroughly with clean water and consult your doctor or pharmacist.

While you are using it

- Thing you must do

Keep away from fire or flame.

Use only as directed.

- Things you must not do

Do not use where sparks come out.

Do not use in confined space.

Do not puncture or incinerate container. Contents under pressure.

Do not expose to temperature exceeding 48°C.

Avoid contact with the eyes, mucous membranes or rashes.

Do not bandage tightly.

Avoid inhalation.

- Things to be careful of

Use with caution in older children.

Side effects

Like all medicines, Salonpas® Pain Relieving JET SPRAY may cause side effects, but not everyone will experience them.

Stop use and ask a doctor if skin reactions such as redness, itching, rash, excessive irritation, burning sensation, swelling or blistering occur.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]
