

## DURIO MEDIRUB MEDICATED VAPORISING OINTMENT

**Active Ingredients:** Camphor 5.26 %w/w, Menthol 2.82 %w/w,  
Eucalyptus Oil 2.00% w/w

**Product Description:** White color ointment with characteristic odour.

**Indication:** Symptomatic relief of blocked nose, cough, muscular aches and pains due to colds.

**Direction of Use:** Apply Durio MediRub Medicated Vaporising Ointment on the throat, chest and back when necessary. For deeper relief, add a small amount of Durio MediRub Medicated Vaporising Ointment to a bowl of hot (not boiling) water and inhale the vapour for 10-15 minutes. When using this product, do not apply heat microwave or add to boiling water.

**Route of Administration:** Topical

**Pharmacodynamics:**

Menthol, camphor, and eucalyptus oil act locally in the respiratory tract.

**Pharmacokinetics:**

The product exerts its action locally; little or no absorption is expected to occur.

**Contraindications:**

Contraindicated in children below 2 years of age. Patient with known hypersensitivity to any of the ingredients in the product.

**Warnings and Precautions:**

This product is contraindicated in children below 2 years of age. Caution must be exercised when older children are treated. It is dangerous to place any camphor containing product into the nostrils of children. A small amount applied this way may cause immediate collapse.

Initially apply a small amount to a limited skin area and observe whether there is discomfort or itch before applying to larger skin area. Discontinues use if irritation develops.

Avoid contact with the eyes and mucous membranes. Do not apply to open wounds or damaged skin. Do not apply over large areas of the body or bandage or use with heating pads. Avoid excessive use during pregnancy and lactation.

If symptoms persist, consult your doctor.

For external use only. Not to be taken orally. Keep out of reach of children.

**Effects on Ability to Drive and Use Machines:** Not known

**Interactions with Other Medicaments:** Not known

**Pregnancy and Lactation:** Safety for use in pregnancy has not been established. Please consult your doctor/pharmacist prior to using this product if you are pregnant, planning for pregnancy or breastfeeding. This product should not be used on the mother's chest during breastfeeding.

**Adverse Effects / Undesirable Effects:**

General disorders and administration site conditions:

- Redness, irritation of the skin, irritation of the eyes (by inhalation), allergic dermatitis.
- Irritations or allergic reactions are usually mild and occur rarely.
- Frequency not known (cannot be estimated from the available data): Burns at application site.

Systemic effects:

Due to the recommended route of administration; systemic exposure is very low and undesirable effects due to systemic exposure have not been observed.

**Symptoms and Treatment of Overdose:**

Over dosage may result in skin irritation.

Misuse:

Swallowing of the ointment might cause gastrointestinal symptoms like vomiting and diarrhoea. Treatment is symptomatic. After significant accidental consumption, acute poisoning was observed, with nausea, vomiting, abdominal pain, and headache, vertigo, feeling hot / flushing, convulsions, respiratory depression and coma. In case of accidental ingestion seek medical assistance. Patients with severe gastrointestinal or neurological symptoms of poisoning should be observed and treated symptomatically. Do not induce vomiting.

**Storage Conditions:** Store below 30 °C. Protect from direct sunlight.

**Shelf Life:** Please refer to the packaging.

Do not use beyond the expiry date.

**Dosage Form:** Ointment

**Packing Size:** 45g
