What Eye Glo Relief is used for

Eye Glo Relief is used to relief sore, swollen and watery eyes.

Your doctor may have prescribed Eye Glo Relief for another reason. Ask your doctor if you have any questions about why Eye Glo Relief has been prescribed for you.

How Eye Glo Relief works

Eye Glo Relief contains zinc sulphate as active ingredients. Zinc sulphate causes the blood vessels to constrict, thereby reducing the redness and swelling of the eyes.

Before you use Eye Glo Relief

- *When you must not take it*

You must not use Eye Glo Relief if you have allergic reactions to zinc sulphate or to any of the ingredients listed at the end of this leaflet.

Do not use Eye Glo Relief after the expiry date printed on the pack.

If you use this medicine after the expiry date has passed, it may not work as well.
Do not use Eye Glo Relief if the packaging is torn or shows signs of tampering.

- *Before you start to use it*

Tell your doctor if you have any allergies to any other medicines, foods or preservatives.

Tell your doctor if you are pregnant or breast-feeding. No relevant information is available.

- *Taking other medicines*

Tell your doctor or pharmacist if you are taking any other medicines, including any that you get without a prescription from your pharmacy, supermarket or health food shop.

Your doctor and pharmacist have more information on medicines to be careful with or avoid while using this medicine.

How to use Eye Glo Relief

Follow all directions given to you by your doctor and pharmacist carefully.

These directions may differ from the information contained in this leaflet.

If you do not understand the instructions on the pack, ask your doctor or pharmacist for help.

- *How much to use*

Instil 1 to 2 drops into the affected eye(s)

- *When to use it*

Use up to 3 to 4 times a day or as your doctor has prescribed.

- *How long to use it*

Continue using Eye Glo Relief as your doctor recommends.

- *If you forget to use it*

Take your dose as soon as you remember, and continue to use it as you would normally.

- *If you use too much (overdose)*

Immediately telephone your doctor for advice or go to Accident and Emergency (Casualty) at the nearest hospital if you think that you or anyone else may have using too much Eye Glo Relief.

Do this even if there are no signs of discomfort or poisoning.

You may need urgent medical attention.

While you are using it

- *Things you must do*

Tell all the doctors, dentists and pharmacists who are treating you that you are using Eye Glo Relief.

If you are about to start taking any new medicine tell your doctor and pharmacist that you are using Eye Glo Relief.

If you experience severe eye pain, changes in vision, continued redness or irritation of the eye, or if symptoms worsen or persist, discontinue use and consult your doctor.

- *Things you must not do*

Do not use Eye Glo Relief to treat any other complaints unless your doctor tells you to do so.
Do not give your medicine to anyone else, even if they have the same condition as you.

Do not touch the tip of the container to any surface to avoid contamination

Do not use the eye drops if the solution changes colour or becomes cloudy, or particles are present.
Do not wear soft contact lenses during and for a period following application of medicine.

Things to be careful of
Be careful driving or operating machinery until you know how Eye Glo Relief affects you.

Side effects
All medicines can have side effects. Sometimes they are serious, most of the time they are not.

Ask for the advice of your doctor or pharmacist if you have any concerns about the effects of using this medicine.

Tell your doctor or pharmacist if you notice anything else that is making you feel unwell.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)

Storage and Disposal of Eye Glo Relief
- *Storage*

Keep your medicine in its original packaging until it is time to use them.

Keep your medicine in a dry place where the temperature will stay below 30°C. Protect from direct light.

Do not use 4 weeks after first opening.

Do not store your medicine, or any other medicine, in the bathroom or near a sink.

Do not leave it on a window sill or in the car.

Heat and dampness can destroy some medicines.

Keep it where children cannot reach it.

A locked cupboard at least one and a half metres above the ground is a good place to store medicines.

- *Disposal*

If your doctor or pharmacist tells you to stop taking this medicine or it has passed its expiry date, ask your pharmacist what to do with any medicine that is left over.
