What WeKare Terbinafine Spray 1%w/v is used for

It is used for the treatment of fungal skin infections such as athlete's foot (tinea pedis), jock itch (tinea cruris), ringworm (tinea corporis), pityriasis versicolor (tinea versicolor) and cutaneous candidiasis.

How WeKare Terbinafine Spray 1%w/v works

Terbinafine is an allylamine which has a broad spectrum of antifungal activity in fungal infections of the skin. It's action being fungicidal against dermatophytes, moulds and certain dimorphous fungi. It has a fungicidal or fungistatic action on yeasts depending on the species involved.

Before you use WeKare Terbinafine Spray 1%w/v

- When you must not use it

Do not use it if you are allergic to any ingredients of WeKare Terbinafine Spray 1%w/v.

WeKare Terbinafine Spray 1%w/v is not recommended for pregnant and breast-feeding women.

- Before you start to use it

Please consult your doctor or pharmacist before using this product if you have any medical conditions.

Pregnancy and lactation

Please consult your doctor or pharmacist if you are pregnant, planning for pregnancy or breast-feeding before using any medicine.

Unless the potential benefits outweigh any potential risks, it should not be administered during pregnancy. Terbinafine is excreted in breast milk and although the amount involved is small, mothers should not receive it whilst breast-feeding. Infants should also not be allowed to come into contact with any treated skin, including the breast.

- Taking other medicines

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use WeKare Terbinafine Spray 1%w/v

- How much to use

Cleanse and dry the affected area thoroughly before application. Spray WeKare Terbinafine Spray 1%w/v to the affected area once a day for one week. Spray from a distance of 5cm to 10cm. The treatment should be continued for 2 weeks after the disappearance of all signs of infection to prevent recurrence. Attention to hygiene is important in the management of fungal diseases, particularly of the folds and the feet. Consult the doctor if there are no signs of improvement after 4 weeks.

- When to use it

Please follow the advice of the doctor or pharmacist.

- How long to use it

Apply this medicine as stated in the leaflet without exceeding the dosage. Please follow the advice of the doctor or pharmacist.

- If you forget to use it

Use it as soon as you remember. If you only remember at the time of the next application, just apply the usual amount and skip the missed dose. Do not apply a double dose to make up for a missed dose.

- If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital if you think you or anyone else may have used too much of this medicine.

If you accidentally ingested a large amount of this medicine, symptoms may include headache, nausea, vomiting, epigastric pain and dizziness.

In case of accidental oral ingestion, gastric lavage and / or symptomatic supportive treatment should be performed as soon as possible.

While you are using WeKare Terbinafine Spray 1%w/v

- Things you must do

Use your medicine exactly as your doctor or pharmacist has told you.

Tell your doctor immediately if you become pregnant while using this medicine.

- Things you must not do

Do not give WeKare Terbinafine Spray 1%w/v to anyone else, even if they have the same symptoms or condition as you.

- Things to be careful of

For external use only. Avoid contact or use the medication in the eyes, nose, or mouth or inside the vagina. If you do get the medication in those areas, flush with plenty of water. Not to be taken orally.

WEKARE TERBINAFINE SPRAY 1%W/V

Terbinafine Hydrochloride 1%w/v

Side effects

Like all medicines, WeKare Terbinafine Spray 1%w/v can cause side effects, although not everybody gets them.

Visit your doctor or pharmacist immediately if you experience any side effects after using this medicine.

Redness, itching or stinging may occur at the site of application.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring or visiting the website npra.gov.my [Consumers →Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and Disposal of WeKare Terbinafine Spray 1%w/v

- Storage

Store below 30°C. Protect from direct sunlight. Keep out of reach of children.

- Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
