Subject: Declaration letter on QR code on Carton artwork

MSN would like to inform that A QR code (quick-response code) is a type of two-dimensional matrix barcode. A barcode is a machine-readable optical image that contains information specific to the labelled item. In practice, QR codes contain data for a locator and an identifier.

Further, we would like to confirm that A QR code on carton contains leaflet identifier which does not linked to any website & the process is followed for commercials.

Hence, we request National Pharmaceutical Regulatory Agency to kindly accept this letter for further processing of registration in Malaysia.
