

The image shows the top portion of a blue prefilled syringe. The syringe has a white plunger and a clear barrel. The text on the syringe is white and includes the brand name 'SKY cellflu', the product description 'Trivalent Solution for Injection in Prefilled Syringe', the vaccine details 'Influenza vaccine, surface antigen, inactivated, prepared in cell cultures', the volume '0.5mL x 10', and the version number '(Ver.003)'.

Influenza vaccine, surface antigen, inactivated, prepared in cell cultures

Trivalent Solution for Injection in Prefilled Syringe

Trivalent Solution for Injection in Prefilled Syringe

Influenza vaccine, surface antigen, inactivated, prepared in cell cultures

0.5mL × 10

[Composition] Each 0.5 mL pre-filled syringe contains:	
Active ingredients:	
Purified inactivated influenza virus surface antigen [A/Michigan/45/2015 NWSN/VX-275(H1N1)] (In-house)	150µg
Purified inactivated influenza virus surface antigen [A/Singapore/ INFN14-16-009/2016, VR-18 (H3N2)] (In-house)	150µg
Purified inactivated influenza virus surface antigen [B/Maryland/15/2016 (In-house)	150µg
Stabilizers:	
Magnesium chloride hexahydrate (Ph. Eur.)	0.050mg
Cabom chloride hydrate (Ph. Eur.)	0.067mg
Excipients: Sodium chloride, Potassium chloride, Potassium dihydrogen phosphate, Disodium phosphate dihydrate	
Solvent: Water for injection (Ph. Eur.)	Q.S.
Supplement: Disposable needle (23Gx5/80x5x16mm) (In-house) tea	
[Appearance] Clear or slightly opalescent liquid contained within colorless and transparent pre-filled syringe.	
[Indications] Active immunization for the prevention of influenza disease caused by influenza virus subtypes A and type B contained in the vaccine, for adults and children 6 months of age and older.	
[Dosage and administration] [(Precautions for use) Please refer to the packaging insert	
[Storage] Keep refrigerated at 2°C to 8°C, Keep away from light. Do NOT freeze.	
• Please refer to the packaging insert for details.	

【Composition】 Each 0.5 mL prefilled syringe contains:

Active ingredients:	
Purified inactivated influenza virus surface antigen [A/Michigan/45/2015, NYMC X-275(H1N1)] (In-house)	15µg
Purified inactivated influenza virus surface antigen [A/Singapore/ PUF14-16/2016 (H3N2), MR-68 (H3N2)]	15µg
Purified inactivated influenza virus surface antigen [B/Maryland/15/2016] (In-house)	15µg
Stabilizers:	

Magnesium chloride hexahydrate (Ph. Eur.)	0,050mg
Calcium chloride dihydrate (Ph. Eur.)	0,067mg

Expipients: Sodium chloride, Potassium chloride, Potassium dihydrogen phosphate, Disodium phosphate dihydrate

Excipients: Sodium chloride, Potassium chloride, Potassium dihydrogen phosphate, Disodium phosphate dihydrate

Excipients: sodium chloride, 1.0333 g; sodium phosphate, 0.0333 g; disodium phosphate dihydrate, 0.0333 g.

153*42*122

Trivalent Solution for Injection in Prefilled Syringe

Influenza vaccine, surface antigen, inactivated, prepared in cell cultures

Intramuscular Injection 2018/2019 season
Shake well before use.

0.5mL × 10
