What NW Salicylic Acid 2%w/w Cream is used for

For treatment of seborrhoeic dermatitis, scalp psoriasis and hyperkeratotic skin conditions.

How NW Salicylic Acid 2%w/w Cream works

Topical salicylic acid treats acne by reducing swelling and redness as well as unclogs blocked skin pores to allow pimples to shrink.

Before you use NW Salicylic Acid 2%w/w Cream

Before you start to use it

Some medical conditions may interact with Salicylic Acid. Tell your doctor or pharmacist if you have any medical conditions, especially if any of the following apply to you:

- Inform your pharmacist or doctor if you are allergic to any other medications.
- Inform your pharmacist or doctor if you are or plan to get pregnant, or are breastfeeding.
- Consult a doctor before using this medicine in children.

When you must not use it

If you are allergic (hypersensitive) to any ingredient in NW Salicylic Acid 2%w/w Cream.

Taking other medicines

There are no known interactions when used as indicated. However, topical salicylic acid may increase the absorption of other topically applied medicines. Concomitant use of NW Salicylic Acid 2%w/w Cream and other topical medicines on the same area of skin should therefore be avoided. other medicines that you take.

Check with your health care provider before you start, stop, or change the dose of any medicine.

How to use NW Salicylic Acid 2%w/w Cream

Apply sparingly to the affected area 2-3 times daily.

Wash your hands immediately after using NW Salicylic Acid 2%w/w Cream.

You may wash the treated area once the medicine has been absorbed into the skin.

Do not apply NW Salicylic Acid 2%w/w Cream to wounds or damaged skin.

NW Salicylic Acid 2%w/w Cream is only used on external part. If you have further questions on the use of this product, ask your doctor or nurse.

Side effects

Severe allergic reactions (rash; hives; itching; difficulty breathing; tightness in the chest; swelling of the mouth, face, lips, or tongue); skin redness or irritation may occur.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by calling Tel : 03-7883 5550, or visiting the website portal.npra.gov.my (Consumer → Reporting)

Storage and Disposal of NW Salicylic Acid 2%w/w Cream
