What NW Calamine Lotion with 0.25% w/w Menthol is used for

NW Calamine Lotion with 0.25% w/w Menthol is used to soothe and relieve nappy rashes, prickly heat, minor skin irritations, insect bites and sunburn, pruritic skin conditions.

How NW Calamine Lotion with 0.25% w/w Menthol works

After application to the skin the NW Calamine Lotion with 0.25% w/w Menthol evaporates, which produces a cooling effect that helps distract you from the itch. This sensation also helps relieve sunburn.

Before you use NW Calamine Lotion with 0.25% w/w Menthol

- When you must not use it
If you or your child have an allergy to any of the ingredients
- Before you start to use it
For external use only. Use only as directed. Do not apply to large areas of the body or in large quantities, particularly over raw or blistered areas. If applied to fingers or toes do not bandage. Avoid contact with eyes and mucous membranes.
- Taking other medicines
Ask your doctor if you are taking other medications. Discontinue use if condition worsen or does not improve within 7 days and consult a doctor.

How to use NW Calamine Lotion with 0.25% w/w Menthol

-How much to use

Apply to the affected areas thinly and allow to dry. Repeat 1 to 3 times daily.

-When to use it

Use as required and as prescribed by your doctor/pharmacist

-How long to use it

Continue using as prescribed by your doctor/pharmacist.

-If you forget to use it

If you are on a schedule, apply the missed dose as soon as you remember. Skip the missed dose if it is almost time for your next schedule. Do not use extra medicine to make up the missed dose.

-If you use too much (overdose)

An overdose of calamine is not expected to be dangerous. Seek emergency medical attention if anyone has accidentally swallowed the medication

While you are using it

-Things you must do to

Ensure the area to be treated is clean and dry. Shake the product well just before each use.

-Things you must not do

Do not use in larger or smaller amounts or for longer than recommended. Do not take by mouth as the product is a topical treatment and is for use only on the skin.

-Things to be careful of

Store the product at room temperature away from moisture and heat. Do not freeze or refrigerate. The product may leave a thin film on the skin as it dries. You may cover the treated area with loose clothing, but the product can stain fabrics it comes in contact with.

Side effects

NW Calamine Lotion with 0.25% w/w Menthol may cause occasional hypersensitivity or irritant reactions. You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers→ Reporting Side effects to Medicines (ConSERF) or Vaccines (AEFI)]

Storage and Disposal of NW Calamine Lotion with 0.25% w/w Menthol

-Storage

Store below 30°C. Keep tightly closed. Keep away from heat, moisture and light. Do not use after the expiry date.

-Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
