- iii) Wounds or burns

How NW Chlorhexidine Gluconate 5 %w/v Topical Solution works

NW Chlorhexidine Gluconate 5%w/v Topical Solution is a bisbiguanide antiseptic and disinfectant, which is bactericidal or bacteriostatic against a wide range of gram negative and gram positive vegetative bacteria, yeasts, dermatophyte fungi and lipophilic viruses.

Before you use NW Chlorhexidine Gluconate 5%w/v Topical Solution

When you must not use it

If you are allergic (hypersensitive) to chlorhexidine gluconate.

Pregnancy and lactation

The safety of NW Chlorhexidine

Gluconate 5%w/v Topical Solution during pregnancy and lactation has not been established but use during these periods is not considered to constitute a hazard.

Before you start to use it

For external use only. Use only as directed. Avoid contact with mucous membranes (layer of skin covering lining cavities or internal organs).

Should not be used for an extended period of time on large areas of the body. Follow your doctor's instructions about how long to use chlorhexidine.

It may cause serious and permanent injury when placed in the eyes, ears, or mouth. Carefully follow all instructions before using chlorhexidine to prevent serious side effects.

If NW Chlorhexidine Gluconate 5% w/v Topical Solution comes into contact with the eyes, wash out immediately and thoroughly with water.

Taking other medicines

No clinically significant interactions known. The medicine is for topical application and will have minimal effect on other medications. However, tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop

How to use NW Chlorhexidine Gluconate 5%w/v Topical Solution?

How much to use

To be used as diluted solution:

- i) Preoperative skin disinfection :
0.5 % w/v Aqueous solution :
Dilute 10 ml of solution with 70% alcohol up to 100ml.
- ii) Emergency disinfection of instruments :
0.5 % w/v Aqueous solution :
Dilute 10 ml of solution with 70% alcohol up to 100ml. Immerse for 2

minutes

- iii) Wounds or burns :
0.05 % w/v aqueous solution :
Dilute 1 ml of solution with 100 ml of sterile water.

To cleanse the skin, thoroughly rinse the area to be cleansed with water. Apply the minimum amount necessary to cover the skin or wound area and wash gently. Rinse thoroughly.
