What Yellow Lotion is used for

Yellow Lotion is an antiseptic for the treatment of infected wounds, cuts, burns or for skin disinfection.

How Yellow Lotion works

Yellow Lotion contains acriflavine hydrochloride which can inhibit the growth or reproduction of bacteria and has antifungal activity.

Before you use Yellow Lotion

- When you must not use it

Do not use if you are hypersensitivity to acriflavine hydrochloride or any other ingredients in this product (listed in Product Description).

- Before you start to use it

Pregnancy and lactation

Consult your doctor or pharmacist if you are pregnant, planning for pregnancy or breast-feeding before using any medicine.

- Taking other medicines

Tell your doctor or pharmacist if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to take Yellow Lotion

- How much to use

Follow all directions given to you by your doctor and pharmacist carefully. They may differ from the information

If you do not understand the instructions on the label, ask your doctor or pharmacist for help.

Directions of Use:

Apply liberally to the affected areas as needed. Shake well before use.

Removal of Stains:

Scrub immediately with detergent or soap and hot water.

- When to use it

Use as directed by your doctor or pharmacist.

- How long to use it

Continue using Yellow Lotion for the duration that your doctor or pharmacist recommends.

- If you forget to use it

Consult your doctor or pharmacist on what you should do if you forget to use it.

Apply the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to apply the medicine and skip the missed dose. Do not apply a double dose to make up for the missed dose.

- If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have used too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

While you are using it

- Things you must do

Use your medicine exactly as your doctor has told you.

Tell all the doctors, dentists and pharmacists treating you that you are using Yellow Lotion.

Tell your doctor immediately if you become pregnant while using this medication.

- Things you must not do

Do not stop using the medicine unless advised by your doctor.

Do not use any new medicines without consulting your doctor or pharmacist.

Do not give Yellow Lotion to anyone else, even if they have the same symptoms or condition as you.

- Things to be careful of

If you notice any side effects, stop using this medicine and tell your doctor or pharmacist. For external use only. Avoid contact with eyes, nose and mouth. Not to be taken.

Side Effects

Like all medicines, Yellow Lotion can cause side effects, although not everybody gets them.

Visit your doctor or pharmacist immediately if you experience any side effects after using this medicine.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and Disposal of Yellow Lotion

- Storage

- Keep out of the reach and sight of children.
- Store below 30°C.
- Protect from light.
- Keep cap tightly closed.

Do not use this product after the expiry date.

- Disposal

Medicines should not be disposed of via wastewater or household waste.
