

Title: Dermazol Plus Gel - 20g Box

Date: 08 Jul 2025

For the topical treatment of infections of the skin by dermatophytes of *Candida spp.* in which inflammatory symptoms are prominent. In view of Dermazol antibacterial effect on gram-positive bacteria, the product may also be used for mycotic affections with bacterial superinfection.

Directions of Use: Apply topically to the lesion 1 to 2 times daily. It should be rubbed in gently with your finger until it has been completely penetrated into the skin. This dosage applies to both adults and children.

For infants and elderly, please refer enclosed leaflet for usage instructions.

Precautions: For external use only. Avoid in contact with eyes, nose and mouth. Not to be taken. If symptoms persist, please consult a doctor.

Storage: Store below 30°C. Protect from light. Keep cap tightly closed after opening. Keep out of reach of children. Jauhkan daripada capaian kanak-kanak.

Please refer enclosed leaflet for more information.
