What Winpamol Syrup is used for

Winpamol Syrup is used for the relief of fever and mild to moderate pain including headache and toothache.

How Winpamol Syrup works

Winpamol Syrup contains Paracetamol which belongs to a group of medicines called analgesic and antipyretic that helps to ease pain and reduce fever.

Before you use Winpamol Syrup

- When you must not take it

- Do not take this product if you are hypersensitivity to Paracetamol or any other ingredients in this product.
- This preparation contains Sodium metabisulphite that may cause serious allergic type reactions in certain susceptible individuals.
- Do not use if known to be hypersensitive to bisulphites.

- Before you start to use it

- Administration to infants less than 1 month is not recommended.
- This medicine should be given with care to individual with impaired liver or kidney function and to individual taking other medicines that affect the liver.
- It is safe in pregnancy and breastfeeding.

- Taking other medicines

Anticoagulant dosage may require reduction if Paracetamol medication is prolonged.

How to take Winpamol Syrup

- How much to take

Children 7 to 12 years:
Take 2 to 4 teaspoons (10 to 20ml).
Children 1 to 6 years:
Take 1 to 2 teaspoons (5 to 10ml).
Infant 3 months to 1 year:
Take ½ to 1 teaspoon (2.5ml to 5ml).

Do not take more than recommended dos.

- When to take it

To be taken 3 to 4 times a day with or without food.

- How long to take it

Take as directed by your doctor or pharmacist.

- If you forget to take it

If you forget to give Winpamol Syrup to your child, give it as soon as you remember. Never double up on the next dose to make up for the one missed.

- If you take too much (overdose)

Symptoms include vomiting, abdominal pain, pale, nausea, loss of appetite, liver damage, abnormalities of glucose metabolism and high acid content in the body.

In severe poisoning, liver failure may progress to abnormal brain function, coma and death. Acute kidney failure and irregular heart beat have been reported.

In case of overdose, prompt specific treatment is essential.

In case of overdose, call National Poison Centre (1800 888 099) or your doctor or go to the accident and emergency centre at your nearest hospital immediately.

While you are using Winpamol Syrup

- Things you must do

Check with your doctor at once:

1. If your child develops rash or allergic reactions.
2. If the pain or fever persists for longer than 5 days for children/ 10 days for adults or getting worse.

- Things you must not do

Do not take this product to treat any other conditions unless it has been prescribed by your doctor.

- Things to be careful of

Do not take this product if you take any other Paracetamol containing medicines at the same time.

Side Effects

Allergy alert: Paracetamol may cause severe skin reactions. Symptoms may include skin reddening, blisters or rash. These could be signs of a serious condition.

If these reactions occur, stop use and seek medical assistance right away.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by calling Tel: 03-78835549, or visiting the website npra.gov.my (Consumer → Reporting Side Effects to Medicines (ConSERF or Vaccines (AEFI))).
