What Kidz PCM 250 Suspension is used for

Kidz PCM 250 Suspension is used for the relief of fever and mild to moderate pain in children, including headache and toothache.

How Kidz PCM 250 Suspension works

Kidz PCM 250 Suspension contains Paracetamol which belongs to a group of medicines called analgesic and antipyretic that helps to ease pain and reduce fever. It is rapidly and completely absorbed following oral administration and will exert its effect between 30 minutes to 2 hours later. This effect could last for 3 to 4 hours.

Before you use Kidz PCM 250 Suspension

When you must not take it

Do not take this product if you are allergic (hypersensitivity) to Paracetamol or any other ingredients in this product.

Before you start to use it

This medicine should be given with care to patients with impaired liver or kidney function and to patients taking other drugs that affect the liver.

Taking other medicines

You should always check with your doctor if your child is taking any of these medicines:

Chloramphenicol, anticoagulant (e.g. Warfarin), drugs increasing or decreasing gastric emptying (e.g. Metoclorpramide, Propantheline or narcotic analgesic, Pethidine) and enzyme-inducing agents (e.g. Phenytoin).

How to take Kidz PCM 250 Suspension

How much to take

For fever and pain

Children 6 to 12 years: Give 5 to 10ml.
Children 1 to 6 years: Give 2.4 to 5ml.
Babies 3 to 12 months: Take 0.6 to 1.2ml.
To be taken 3 to 4 times a day.

For post-immunization fever in babies

Babies 2 to 3 months:

Give 1.2ml as a single dose. A second dose can be repeated after 6 hours if necessary.

Do not give more than 4 doses in 24 hours.

Do not exceed the recommended dose unless advised by doctor.

Shake well before use.

When to take it

May be taken with or without food.

How long to take it

Take as directed by your doctor or pharmacist.

If you forget to take it

If you forget to give Kidz PCM 250 Suspension to your child, give it as soon as you remember. Never double up on the next dose to make up for the one missed.

If you take too much (overdose)

In case of overdose, call National Poison Centre (1800 888 099) or your doctor or go to the accident and emergency centre at your nearest hospital immediately.

While you are using Kidz PCM 250 Suspension

Things you must do

Check with your doctor at once:

1. If your child develops rash or allergic reactions.
2. If the pain persists for longer than 5 days for children or getting worse.
3. If the fever last for more than 3 days or recurs.

Things you must not do

Do not take this product to treat any other conditions unless it has been prescribed by your doctor.

Things to be careful of

Do not take this product if you take any other Paracetamol containing medicines at the same time.

Side Effects

Allergy alert: Paracetamol may cause severe skin reactions. Symptoms may include skin reddening, blisters or rash. These could be signs of a serious condition. If these reactions occur, stop use and seek medical assistance right away.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by calling Tel: 03-78835550, or visiting the website portal.bpfk.gov.my (Consumers → Reporting)

Storage and Disposal of Kidz PCM 250 Suspension

Storage

- Store below 30°C.
- Protect from light.
- Keep cap tightly closed.
- Keep out of reach of children.

Disposal

Do not take this after the expiry date. An expiry date is printed on the label of the medicine.
