Glumil 850mg Tablet
Metformin HCl 850 mg

Composition : Each tablet contains Metformin HCl 850 mg.
Indications : Glumil 850 mg Tablet is an oral antidiabetic agent (biguanide) intended for the treatment of type 2 diabetes. Glumil 850 mg Tablet may be given alone or with oral antidiabetic agents, or with insulin. A reduction of diabetic complications has been shown in overweight type 2 diabetic adult patients treated with metformin as first-line therapy after diet therapy.
Dosage : The dosage of Glumil 850 mg Tablet is determined by your doctor on an individual basis according to the results of laboratory blood glucose measurement. The initial dosage may be increased as necessary to be one tablet 2 or 3 times daily in adults. The maximum recommended dose is 3 g daily in adults.
Route of administration : Oral
Contraindications, Precautions : See the package insert.
