This leaflet answers some common questions about Dezor Cream. It does not contain all the available information. It does not take the place of talking to your doctor or pharmacist.

All medicines have risks and benefits. Your doctor has weighed the risks of you using this medicine against the benefits they expect it will have for you.

If you have any concerns about using this medicine, ask your doctor or pharmacist.

Keep this leaflet with the medicine.

You may want to read it again.

What Dezor Cream is used for

Dezor Cream is indicated for the treatment of yeast and fungal infections of the skin (cutaneous candidiasis), foot (athlete's foot), trunk, legs or arms (tinea corporis), groin (tinea cruris), flaky and discoloration skin of the chest or back (pityriasis versicolor).

How Dezor Cream works

This medicine contains Ketoconazole which serves to kill a fungus causing infection.

Before you use Dezor Cream

-When you must not use it

Do not take Dezor Cream if you are hypersensitive to:

- If you are hypersensitivity to Ketoconazole.
- Any of the ingredients listed at the end of this leaflet.

Do not give this medicine to children under 2 years of age.

Pregnancy and breast feeding:
Ask your doctor or pharmacist for advice before taking any medicine if you are pregnant or breast-feeding.

-Taking other medicines

Concomitant administration of Ketoconazole with rifampicin results in decreased antifungal activity. Concurrent use of Ketoconazole and Phenytoin may alter concentration of both medicines.

How to use Dezor Cream

-How much to use

Apply once daily

-How long to use it

- Yeast and fungal infection of the skin, groin, trunk, legs and arms: 2 weeks
- Foot (athlete's foot): 4-6 weeks

-If you forget to use it

Use it as soon as you remember. Then go back to your regular schedule.

If it is about time for your next dose, apply just that 1 dose, and continue with your regular schedule.

Do not make up the missed dose. If you miss several doses, tell your doctor.

-If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hopsital, if you think you or anyone else may have taken too much of this medicine. Do this even if there are no sign of discomfort or poisoning. You may need urgent medical attention.

While you are using Dezor Cream

-Things you must do

If you are about to start taking on any other new medicine, tell your pharmacist or doctor that you are taking Dezor Cream.

-Things you must not do

Avoid contact with eyes and mucous membranes (for external use only). Dezor Cream may cause skin irritation. If you are not sure, talk to your doctor or pharmacist before using.

-Things to be careful of

Particular care should be taken to avoid accidental introduction into the eye. If irritation or sensitivity occurs, treatment should be discontinued. Advise to consult doctor if no improvement is seen.

Side effects

Dezor Cream may cause side effects. These include:

- stinging
- inflammation
- swelling
- blistering
- peeling
- itching
- dryness
- tingling

If any of the side effects gets serious, or if you notice any side effects not listed in this leaflet, please tell your doctor or pharmacist.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and Disposal of DEZOR CREAM

-Storage

Store below 30ºC. Keep out of the reach of children**.**

-Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
