How to use Tefin Terbinafine HCl Spray 10mg/g

-How much to use

Do not use this medicine to children under 2 years of age.

Consult with your doctor if you want to give this medicine to children under 2 years of age.

If Tefin Terbinafine HCl Spray 10mg/g has been prescribed for you by your doctor, follow any instructions he/she may have given you.

If you purchased this product without a prescription, follow these directions closely:

- Before use, shake well by inverting the bottle.
- Wash and dry affected area. Spray sparingly to the affected parts and surrounding skin areas once daily.

-When to use it

Once daily for one week after wash and dry affected area. Regular applications are essential for successful treatment.

-How long to use it

The treatment should be continued for at least 2 weeks even after the disappearance of all signs of infection to prevent re-infection. Consult doctor if no improvement is seen in 4 weeks (athlete's foot) or 2 weeks (for jock itch).

-If you forget to use it

Apply the spray as soon as possible and then continue the rest of your treatment as usual.

-If you use too much (overdose)

No information is available concerning overdosage in human beings following topical application.

While you are using Tefin Terbinafine HCl Spray 10mg/g

-Things you must do

You can help the treatment to work if you follow simple self-help tips:

- Although the infection area will itch, try do not scratch. Scratching will damage the surface of the skin and cause the infection to spread further.

TEFIN TERBINAFINE HCL SPRAY 10mg/g

Terbinafine Hydrochloride (1% w/w)

- Keep the affected skin areas clean particularly of the folds and the feet.
- Pay particular attention to drying the skin but avoid excessive rubbing.
- Do not share towels, bath mats, etc. with other people as you could spread the infection to them.
- Always wash your hands after treating the infection to prevent it from spreading.

-Things you must not do

Tefin Terbinafine HCl Spray

10mg/g is for external use only.

Do not spray into your mouth or swallow it. If the spray mist is swallowed accidentally, tell your doctor straight away or contact the Accident and Emergency Department of your nearest hospital.

If you accidentally get spray mist in your eyes or mouth, wash immediately with water and contact your doctor.

- Things to be careful of

If irritation or sensitivity occurs, treatment should be discontinued.

Side effects

Tefin Terbinafine HCl Spray 10mg/g can cause side effects, although not everybody gets them.

As with all medicines, some people may be allergic to the spray mist. If you are allergic, a reaction will occur soon after you start using it. If you experience an allergic reaction, stop using Tefin Terbinafine HCl Spray 10mg/g and tell your doctor straight away or contact the Accident and Emergency Department of your nearest hospital. Signs of an allergic reaction may include:

- Hives.
