## What LION BALL CORNCAP PLASTER 50%w/w is used for?

LION BALL CORNCAP PLASTER 50%w/w is used for the removal of corn, callus and wart.

## How LION BALL CORNCAP PLASTER 50%w/w works?

LION BALL CORNCAP PLASTER 50%w/w contains 32mg of salicylic acid per plaster which has keratolytic properties that produces slow and gentle destruction of epithelium (skin) when applied externally.

## Before you use LION BALL CORNCAP PLASTER 50%w/w:

- *When you must not use it?*
  - a) If you are having a history of hypersensitivity.
  - b) If you are a diabetic patient.
  - c) If you are a peripheral blood patient.
  - d) If you intend to apply around eye and eye membrane.
  - e) If you intend to apply on the part of infection, inflammation and rash.
  - f) If you intend to apply on a mole, mole since birth, wart with hair and wart around genital area.

- g) If you age below 16 years old or intend to apply it to an infant.

- *Before you start to use it.*

Please consult your doctor/ pharmacist prior to using this product if you are having other concomitant skin problem.

- *Taking other medicines.*

When LION BALL CORNCAP PLASTER 50%w/w is used while you are on methotrexate, toxicity of methotrexate may increase. Concomitant use of LION BALL CORNCAP PLASTER 50%w/w and other topically applied medicine should be avoided as it might stimulate absorption of other topical drugs.

## How to use LION BALL CORNCAP PLASTER 50%w/w:

- *How much to use*

Apply one piece of LION BALL CORNCAP PLASTER 50%w/w on the affected area carefully for 2 days depending on the condition following instruction from your doctor/pharmacist.

- *When to use it?*

LION BALL CORNCAP PLASTER 50%w/w should be applied after cleaning the affected area.

- *How long to use it?*

For 2 days. Repeat treatment if necessary and treatment should not continue for more than 6 weeks. Use in accordance with professional medical advice

- *If you forget to use it.*

Replace with a new plaster as soon as you remember. Never apply more than 1 plaster on the same affected area in a day.

- *If you use too much (overdose)*

Skin irritation and redness around the application site may become intolerable. Stop the medication and seek advice from your doctor/pharmacist immediately.

## While you are using it:

- *Things you must do.*

Follow the dosing instruction. Ensure cleanliness of the affected area before and after applying the plaster.

- *Things you must not do.*

Do not reuse the plaster as cross-contamination can occur. This plaster is for external use only. The plaster must not be applied around eye area, inflamed skin or broken skin.

- *Things to be careful of.*

Please do not apply this plaster in pregnant women, breastfeeding mothers, infants and children aged below 16 years old. When there is no improvement after completing the course, stop the treatment and consult doctor/pharmacist. Water activities may cause dissolution of the drug.

## Side effects:

Rash, redness and itch may appear. Prolonged use may cause inflammation of the skin and skin ulcers. Mild irritation may occur on the normal skin surrounding the corn. Stop the medication and always speak to your doctor/pharmacist if you find the discomfort intolerable.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website [npra.gov.my](http://npra.gov.my) [Consumers→ Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]

## Storage and disposal of LION BALL CORNCAP PLASTER 50%w/w

Store below 30 °C. Avoid storing in direct sunlight. Discard used plaster appropriately. Keep out of reach of children.
