

# Sangobion®

 **COMPLETE**

Sangobion combines in one capsule haematopoietic substances in well balanced proportion

## Composition

Each capsule contains:

Ferrous Gluconate	250.0 mg
Manganese Sulfate	0.2 mg
Copper Sulfate	0.2 mg
Vitamin C	50.0 mg
Folic Acid	1.0 mg
Vitamin B12	7.5 mcg
Sorbitol	25.0 mg

## Product Description

Hard gelatin capsules, dark brown colour.

## Action

Iron in high dosage and well tolerated form is indispensable for the formation of haemoglobin. Together with other haematopoietic factors and iron absorption enhancing factors, Sangobion is the drug of choice for anaemia. Moreover Sangobion is supplemented with Sorbitol to prevent constipation.

## Indication

Iron deficiency anaemia.  
Haemorrhagic anaemias of traumatic or endogenous origin.  
Anaemia during pregnancy, growth, convalescence and senility.  
Aplastic anaemias, due to infections, toxins or tumours.  
Megaloblastic and macrocytic hyperchromic anaemias.  
Alimentary anaemias.  
Prophylaxis against anaemia in blood donors.

## Presentations

Box of 25 x 4 capsules in strips  
Box of 15 x 4 capsules in strips  
Box of 7 x 4 capsules in strips

## Manufactured by

PT. Merck Tbk., Jakarta

## Dosage

1-2 capsules daily during or after meals.

## Route of administration

Oral
