Turpentine Oil (40.13%w/v)

## What is in this leaflet

1. What Sloan's Liniment is used for
2. How Sloan's Liniment works
3. Before you use Sloan's Liniment
4. How to use Sloan's Liniment
5. While you are using it
6. Side effects
7. Storage and Disposal of Sloan's Liniment
8. Product Description
9. Manufacturer and Product Registration Holder
10. Date of Revision

## What Sloan's Liniment is used for

Sloan's Liniment is used for relief of muscular rheumatism, lower back pain on muscles and joints (lumbago), stiff neck, neuralgia, lower back pain that spreads to the hip, buttocks and leg (sciatica), sprains, bruises, painful inflammation that cause itching, red patches, swelling and blistering on hands and feet (chilblains) and muscular cramp.

## How Sloan's Liniment works

Sloan's liniment contains topical menthol, methyl salicylate, camphor, oleoresin, capsicum and turpentine which act as topical analgesics that help to reduce pain and inflammation of the affected sites.

## Before you use Sloan's Liniment

- When you must not use it
  - If you are allergic (hypersensitive) to turpentine oil, menthol, camphor, methyl salicylate, oleoresin, capsicum or any other ingredient in this product.
  - Do not use on children under 2 years of age
  - Do not use it if any of the above applies to you. If you are not sure, talk to your doctor or pharmacist before using Sloan's Liniment.

## - Before you start to use it

Check with your doctor or pharmacist before using this medicine if:

- you are taking warfarin (medication used to prevent heart attacks, strokes, and blood clots).
- if you are pregnant, trying to get pregnant or think you may be pregnant
- if you are breast-feeding. Ask your doctor or pharmacist for advice before taking any medicine

## - Taking other medicines

Tell your doctor if you are taking any other medicines, including any that you buy from a pharmacy, supermarket or health food shop without a prescription.

For patients taking warfarin (a blood thinner), excessive application on the skin for muscle and joint pains may increase the chance of bleeding.

## How to use Sloan's Liniment

### - How much to use

Apply the liniment liberally with a soft flannel cloth or a piece of cotton wool. Do not rub

Follow all directions given to you by your doctor and pharmacist carefully. They may differ from the information contained in this leaflet. If you do not understand the instructions on the label, ask your doctor or pharmacist for help.

### - When to use it

You should start to use when you have muscular rheumatism, lower back pain on muscles and joints (lumbago), stiff neck, neuralgia, lower back pain that spreads to the hip, buttocks and leg (sciatica), sprains, bruises, painful inflammation that cause itching, red patches, swelling and blistering on hands and feet (chilblains) and muscular cramp.

## - How long to use it

Use Sloan Liniment as needed.

## - If you forget to use it

If you forget to use Sloan's Liniment, use it as soon as you remember. However, if it is nearly time for your next application, skip the missed application.

## - If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have taken too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

## While you are using it

### - Things you must do

Always wash your hands before and after you use Sloan's Liniment.

Tell all the doctors or pharmacists that are treating you that you are taking Sloan's Liniment.

Tell your doctor immediately if you become pregnant while taking this medication.

### - Things you must not do

Do not apply directly into nostril of children. Do not apply on mucous membrane, open wounds or damaged skin.

Do not rub.

Sloan's Liniment is strong enough without rubbing, which might harm tender skin. Do not bandage.

### - Things to be careful of

For external use only. Avoid contact with eyes. Caution must be exercised when older children are treated.

**Side effects**

Like other medicines Sloan's Liniment can cause some side effects. If they occur, most are likely to be minor and last only a short time. However, some may be serious and need medical attention.

Ask for the advice of your doctor or pharmacist if you have any concerns about the effects of using this medicine.

You may experience skin irritation or sensitization.

Do not be alarmed by this list of possible side effects. You may not experience any of them.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Monitoring by visiting the website [npra.gov.my](http://npra.gov.my) [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

**Storage and Disposal of Sloan's Liniment****- Storage**

Store below 30° C. Keep away from fire or flame.

**- Disposal**

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
