Directions for use:

The product should be used with a respirator or nebuliser only, under the direction of a physician. It is not to be injected or administered orally. Remove a pouch of compipack respule from the carton. Use a fresh respule for each dose.

Tear one respule
from the combipack

To open the respule twist off the cap as shown in the figure.

Squeeze the content into the reservoir of the nebulizing chamber.

Discard the respule after use.

Store the respules in foil pouch at all times. Once the foil pouch is opened the respules should be used within three month.
