What Acriflavine Lotion is used for

For minor wounds, burns and infected skin.

How Acriflavine Lotion works

Acriflavine Lotion works by acting like antiseptic in treatment of infected skin and wounds.

Before using Acriflavine Lotion

When you must not use it

You are allergic to acriflavine or other ingredients present in the lotion or you have photosensitivity (skin inflammation on exposure to light).

Before you start to use it

Please consult your doctor or pharmacist before using it.

Taking other medicines

Do tell your doctor or pharmacist if you are taking any other medications.

How to use Acriflavine Lotion

How much to use

Clean the affected area. Apply a small amount of solution to the affected area one to three times daily. Let dry and cover with a sterile bandage if needed.

When to use

Follow the directions on the label carefully or as instructed by your doctor or pharmacist.

How long to use

Please refer to your doctor or pharmacist.

If you forget to use it

Apply as soon as you remember, if it is too near to the next dose timing, apply the next dose normally. Do not apply extra to make up for the missed dose.

If you use too much (overdose)

Seek medical attention as soon as possible.

While you are using Acriflavine Lotion

Things you must do

Consult your doctor or pharmacist if symptoms persist. Doctor or pharmacist will assess your situation and advise on the need to continue application of Acriflavine Lotion.

Things you must not do

Do not administer Acriflavine Lotion to treat other complaints unless advised by your doctor.

Things to be careful of

- For external use only.
- Not recommended for prolonged use on wounds as it may delay healing.
- Wash with water if it comes into contact with eyes, and seek medical help.

Side Effects

- Photosensitivity.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npa.gov.my [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and Disposal of Acriflavine Lotion

Storage

- Store in a dry place below 30°C.
- Protect from light.
- Keep container tightly closed.

Disposal

Acriflavine Lotion should not be disposed via wastewater or household waste. Ask advice from pharmacist on the correct disposal of the product once no longer required. This will help to protect the environment.

Product Description

What it looks like

Clear yellow to light brown solution.

Active ingredient:

- Acriflavine

Inactive ingredient:

- Purified water
