- Each syringe in 0.5 ml contains 30 MU of filgrastim (0.60 mg/ml) and acetic acid, sodium hydroxide, sorbitol (E420), polysorbate 80, water for injection
- Store in a refrigerator at 2 °C - 8 °C. Do not freeze.
- Keep the syringe in carton,
- Protect from light.
- Keep out of reach and sight of children / Jauhi dari kanak-kanak
- Medicinal product subject to medical prescription
- Do not shake
- Single use only
- Read the package leaflet before use

Chemical and physical in-use stability of the diluted solution for infusion has been demonstrated for 24 hours at 2°C to 8°C. From a microbiological point of view, the product should be used immediately. If not used immediately, in-use storage times and conditions prior to use are the responsibility of the user and would normally not be longer than 24 hours at 2°C to 8°C, unless dilution has taken place in controlled and validated aseptic conditions.
Within its shelf-life and for the purpose of ambulatory use, the patient may remove the product from the refrigerator and store it at room temperature (not above 25°C) for one single period of up to 15 days. At the end of this period, the product should not be put back in the refrigerator and should be disposed of.
