## What Konzert Cream is used for

Konzert Cream is used for the:

Local treatment of superficial fungal skin infections such as dermatophytoses, *Tinea pedis* (athlete's foot), *Tinea cruris* (Jock itch), *Tinea corporis* (Ringworm), *Tinea barbae* (Beard Ringworm), *Tinea manus*, Candidiasis (Yeast infection), Pityriasis versicolor (Common fungal infection) and Malassezia furfur (Species of yeast).

## How Konzert Cream works

Konzert Cream contains the active ingredient sertaconazole nitrate which is antifungal in action.

## Before you use Konzert Cream

### - When you must not use it

Do not use Konzert Cream if you:

- are allergic to antifungal agents (imidazole derivatives) or excipients of this product.

### - Before you start to use it

Warnings and precautions

- Do not use Konzert Cream in your eyes, vagina or mouth and other mucous membrane.
- Konzert Cream, is for use on the skin only. If irritation or sensitivity develops with the use of Konzert Cream, treatment should be discontinued and appropriate therapy instituted.

**If any of the above applies to you or you are not sure, talk to your doctor before using this medicine.**

### - Pregnancy, breast-feeding and fertility

If you are pregnant, breast-feeding or trying for a baby, tell your doctor or midwife before using Konzert Cream. If you have informed your doctor or midwife already, follow his/her instructions carefully.

### **Konzert Cream contains benzyl alcohol.**

Its use should be avoided in children under two years of age. Not to be used in neonates.

### - Taking other medicines

Tell your doctor if you are taking, have recently taken or might take any of the medicines including prescription and over the-counter medicines as your dose may need to be changed or you may need to have regular tests performed.

Ask your doctor or pharmacist for advice before using any medicine.

## How to use Konzert Cream

Use Konzert Cream exactly as your healthcare provider tells you to use it.

### - How much to use

#### In Adults

The cream is applied to the affected skin with a uniform thin layer 1 or 2 times per day (preferably at night, or in the morning and at night), covering approx. 1 cm of the healthy skin surface around the affected area.

#### In Children and Elderly

Dose is same as in adults.

### - When to use it

Use this medicine exactly as your doctor has told you. Check with your doctor or pharmacist if you are not sure.

### - How long to use it

The duration of treatment depends on the etiology and location of infection. As a rule, the symptoms of the disease disappear in 2-4 weeks. The recommended treatment duration is 4 weeks.

### - If you forget to use it

If you forget to use Konzert Cream, use it as soon as you remember. However, if it is nearly time for your next dose, skip the missed dose. Do not use a double dose to make up for a forgotten dose.

### - If you use too much (overdose)

Talk to your doctor or pharmacist if you applied more Konzert Cream. Take the medicine pack with you.

## **Konzert Cream is for external use only:**

Do not put the cream in your mouth or swallow it.

If the cream is swallowed accidentally, tell your doctor straight away or contact the Accident and Emergency Department of your nearest hospital.

If you accidentally get cream in your eyes or mouth, wash immediately with water and contact your doctor.

### - If you stop using it

Use the medication for the full treatment time recommended by the physician, even though symptoms may have improved. Notify the physician if there is no improvement after the end of the prescribed treatment period, or sooner, if the condition worsens.

If you have any further questions on the use of this medicine, ask your doctor, pharmacist or nurse.

## **While you are using it**

### - Things you must do

Use your medicine exactly as your doctor has told you. Check with your doctor if you are not sure.

Use Konzert Cream, as directed by the physician.

Avoid contact with the eyes, nose, mouth and other mucous membranes. Konzert Cream, is for external use only.

Dry the affected area(s) thoroughly before application, if you wish to use Konzert Cream, after bathing.

The hands should be washed after applying the medication to the affected area(s).

# Konzert Cream

Sertaconazole Nitrate (2% w/w)

Use the medication for the full treatment time recommended by the physician, even though symptoms may have improved. Notify the physician if there is no improvement after the end of the prescribed treatment period, or sooner, if the condition worsens.

Inform the physician if the area of application shows signs of increased irritation, redness, itching, burning, blistering, swelling or oozing.

Avoid the use of occlusive dressings unless otherwise directed by the physician.

## - Things you must not do

Do not stop using the medicine unless your doctor tells you to.

Do not use any new medicines without consulting your doctor.

Do not use this medication for any disorder other than that for which it was prescribed.

Do not give Konzert Cream to anyone else, even if they have the same symptoms or condition as you.

## Side effects

Like all medicines, this medicine can cause side effects, although not everybody gets them.

Other possible side effects include:

- Contact dermatitis (red, itchy rash)
- Redness of the skin (erythema)
- Itching (pruritus)
- Formation of vesicles in or beneath the skin (vesiculation)
- Skin peeling (desquamation)
- Darkened patches or spots on the skin (hyperpigmentation)

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website [npra.gov.my](http://npra.gov.my) [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]

## Storage and Disposal of Konzert Cream

### - Storage

Store below 30°C. Do not freeze. Keep out of reach of children.

### - Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.
