# Relcer™ Gel

## ANTACID-ANTIFLATULENT

**Composition**  
Each 5 ml contains:  
Aluminium Hydroxide Gel USP equivalent to  
Aluminium Hydroxide 365 mg  
Magnesium Hydroxide Paste USP equivalent to  
Magnesium Hydroxide 80 mg  
Simethicone USP 100 mg  
Deglycyrrhizinated Liquorice equivalent to Liquorice 400 mg

**PRESERVATIVES:**  
Sodium Benzoate BP 25 mg  
Methyl Paraben BP 10 mg  
Propyl Paraben BP 2.5 mg

**Product Description:**  
A printed carton containing a leaflet and amber coloured labeled sealed PET bottle with 10 ml measuring cup, containing a cream coloured, viscous suspension with banana peppermint flavor.

**Action**  
**RELCEr Gel** contains the time tested antacids, Aluminium Hydroxide Gel and Magnesium Hydroxide to exert prompt and pronounced acid neutralising activity without the acid rebound sometimes seen with Calcium Carbonate. Simethicone causes gas bubbles to coalesce by changing their surface tension thereby relieving flatus and gastric distention. Deglycyrrhizinated Liquorice, the purified extract of Liquorice, improves the defensive action of gastric mucosa by helping the regeneration of mucus cells leading to greater mucus cell turnover improving the quality and quantity of mucus. Besides, it exerts spasmolytic activity.  
The pleasant taste and flavour of **RELCEr Gel** will ensure patient compliance for successful therapy.

**Indications**  
**RELCEr Gel** is indicated for the symptomatic relief of gastric, pain, acid indigestion, heartburn and excess gas in the stomach and for the treatment of peptic ulcer.

**Dosage**  
1 to 2 teaspoons three to four times daily after meals and at bedtime or as directed by the Physician.

**Side Effects**  
**RELCEr Gel** is normally well tolerated. The occasional constipating effect from Aluminium Hydroxide is balanced by the mild laxative effect of Magnesium Hydroxide.

**Storage:**  
Store below 30°C. Protect from freezing & light.

**Presentation:** Bottle of 100 ml.  
MAL 19920589 X  
Date of Revision: 01 June 2025
