Product Description:
Orange to light brown viscous solution

Indications:
Traditionally used for relief of common cold and cough

Dosage & Administration:
(Syrup to be taken before meals & with some water)

- Adults & children over 12 years : take 7.5ml 3 times daily
- Children between 6 - 12 years : take 5ml 3 times daily
- Children between 1 - 5 years : take 2.5ml 3 times daily

(Measuring cup is provided)
After relief of the symptoms, continue taking ***Kaloba®*** syrup for several days in order to prevent a relapse.
The total duration of taking should not exceed 3 weeks.

Contra-Indications:
Kaloba® syrup should not be taken

- during pregnancy and lactation, as no adequate data are available
- If you have severe liver disease, as no adequate data are available
- If you are hypersensitive (allergic) to Pelargonium sidoides extract or any other ingredients of ***Kaloba®***

Precautions:

- If symptoms do not improve within one week, in case of fever, lasting for several days, liver dysfunction of different origin, shortness of breath or bloody sputum, please consult your doctor/pharmacist
- There is a lack of adequate data on the safety of use in severe kidney disease

IN VERY RARE CASES, PELARGONIUM SIDOIDES MAY CAUSE HYPERSENSITIVITY REACTIONS

Side Effects:
In the context of infections of the respiratory tract, gastrointestinal complaints such as stomach pain, heartburn, nausea or diarrhea may occur uncommonly.

In rare cases, mild bleeding from the gums or nose may occur.

Hypersensitivity reactions (e.g. skin rash, urticaria, itching of the skin and mucous membranes) have also been described in rare cases. Such reactions may already occur on first taking ***Kaloba®***. In very rare cases, serious hypersensitivity reactions with swellings of the face, shortness of breath and drop of blood pressure may occur.

Liver dysfunction of different origin has been reported. The causal relationship between this finding and the application of the product has not been demonstrated.

Interaction:
None known
