AQUACARE CREAM

Description

AQUACARE Cream is a white and soft cream contains:

1. White Soft Paraffin 15% w/w
2. Emulsifying Wax 9% w/w
3. Liquid Paraffin 6% w/w

Pharmacodynamic

The ingredients provide emollient, moisturising action on dry or chapped skin.

Pharmacokinetic

Not applicable.

Indications

As an emollient for the symptomatic relief of dry skin conditions and as soap-substitute for skin-washing.

Dosage & Administration

Adults, children and elderly.

Apply sparingly to the affected area as required or as directed by your pharmacist or doctor.

Contraindications

- Hypersensitivity to any of the ingredients.

Warnings and Precautions

- For external use only.
- Contains Chlorocresol which may cause allergic reactions.
- Keep out of reach of children.

Interactions With Other Medicaments

No clinically significant drug interactions known.

Usage During Pregnancy and Lactation

The safety of aqueous cream during pregnancy and lactation has not been established but is not considered to constitute a hazard during these period.

Side Effects / Adverse Reactions

- Occasional allergic reactions.
- AQUACARE Cream may be associated with immediate cutaneous reactions when used as a leave-on emollient, such as stinging, burning, itching and redness.

Overdose and Treatment

Symptoms of accidental oral ingestion may include gastrointestinal symptoms, particularly diarrhea. Treatment need only be symptomatic.

Storage Conditions

Keep the Jar tightly closed.

Store below 30 °C.

Protect from heat, moisture and light.

Shelf Life

Please refer to product label.

Dosage Form

Cream.

Packaging

HDPE jar of 100 gram and 500 gram.

This insert contains basic prescribing information only.

For further information, please consult your physician or pharmacist.
