CONTROLLED MEDICINE / UBAT TERKAWAL

Each vial contains 40 mg parecoxib (present as 42.36 mg parecoxib sodium) for reconstitution with 2 mL of solvent. After reconstitution, the final concentration of parecoxib is 20 mg/mL.
 For reconstitution, please refer to package insert.
Store below 30°C.
 Chemical and physical in-use stability of the reconstituted solution has been demonstrated for 24 hours at 30°C. From a microbiological point of view, the aseptically prepared product should be used immediately. If not used immediately, in-use storage times and conditions prior to use are the responsibility of the user and would not normally be longer than 12 hours at 30°C, unless reconstitution has taken place in controlled and validated aseptic conditions.
 Do not refrigerate or freeze reconstituted solutions.
 Keep medicine out of reach of children.
 Jauhi ubat-ubatan dari kanak-kanak.
 For single use only.
 See the package insert for recommended dosage, contraindication and precautions.
