What INFECCO Eusol (Solution A and B) Antiseptic is used for

For skin disinfection particularly wound and ulcer cleaning.

How INFECCO Eusol (Solution A and B) Antiseptic works

Eusol Solution improves the patient's condition by performing the following functions:

- Killing the infection causing bacteria.
- Inhibiting the formation of bacterial cell wall.

Before you use INFECCO Eusol (Solution A and B) Antiseptic

- When you must not take it
Do not use this product if you are allergic to the ingredients of the product
- Before you start to use it
 - Ask your doctor or pharmacist for advice before using this product if you are pregnant or breastfeeding.
 - To check on sensitivity, applying a drop of solution to a small area of your skin and observe for any adverse reactions.
- Taking other medicines
The medicine is for topical application, usually will have minimal effect on other medications.

However, please inform the doctor or pharmacist if taking other medicines.

How to use INFECCO Eusol (Solution A and B) Antiseptic

- How much to use
Mix equal volume of Eusol Solution A and Eusol Solution B before use. For external use only.
- When to use it
You check with your doctor or pharmacist.
- How long to use it
You check with your doctor or pharmacist.
- If you forget to use it
You check with your doctor or pharmacist.
- If you use too much (overdose)
Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have taken too much of this medicine.

Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

While you are using it

- Things you must do
Inform doctor of medications that you are taking.
- Things you must not do
Avoid direct contact with eyes.
Keep out of reach of children.
- Things to be careful of
If pregnant or become pregnant or breast-feeding during treatment, should not use this product unless doctor advised.
