TO WHOM SO EVER IT MAY CONCERN

We, Aurobindo Pharma Limited (as a manufacturer) hereby declare that the below information will be provided after scanning of the 2D barcode as per the guidelines of Directorate General of Foreign Trade (DGFT), India.

- 1) Encoding unique product identification code (GTIN)
- 2) Incorporation of Unique Serial Number
- 3) Incorporation of 2D Barcode (Data Matrix)

It is mandatory to print data encoded in barcode as a Human readable format.

The above procedure is used for tracing and tracking of export consignments of pharmaceutical products.

For Aurobindo Pharma Limited,

M. Vijay Kumar,
Regulatory Affairs department.
