What Triconazole Cream is used for

Triconazole Cream is used to treat skin inflammation caused by fungal (ringworm, yeast, or mold) or bacterial infection.

How Triconazole Cream works

The active ingredients in this medicine are triamcinolone acetonide and econazole nitrate.

Triamcinolone belongs to a group of medicines called corticosteroids. It helps to reduce inflammation and itchiness. Econazole is a type of antifungal that fights fungal infections of the skin.

Before you use Triconazole Cream

- When you must not use it

Do not use Triconazole Cream if you are hypersensitive to triamcinolone acetonide, econazole nitrate, other corticosteroids, or any other ingredients in this medication (listed in the Product Description).

- Before you start to use it

Check with your doctor before you start to use Triconazole Cream.

Pregnancy and Lactation

Please consult your doctor or pharmacist if you are pregnant, planning for pregnancy or breast-feeding before using this medicine.

Triconazole Cream should only be used during pregnancy if the benefit outweighs the risk to the foetus.

It is unknown whether Triconazole Cream is secreted into breastmilk. Therefore, you should only use this medicine if the benefit outweighs the risk.

Usage in Children

This medicine should be used with caution in children.

- Taking other medicines

Tell your doctor if you are taking any other medicines, including those you buy without a prescription from a pharmacy, supermarket, or health food shop.

You should talk to your doctor or pharmacist if you are taking:

- blood thinning medications such as warfarin or acenocoumarol.

How to use Triconazole Cream

- How much to use

Topical application.

Apply the cream to the affected skin areas twice daily.

- When to use it

Apply twice a day or as directed by your doctor or pharmacist.

- How long to use it

Use this medicine for the duration that your doctor recommends.

- If you forget to use it

Apply the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to apply the medicine and skip the missed dose. Do not apply a double dose to make up for the missed dose.

- If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital if you or anyone else may have used too much of this medicine. You may need urgent medical attention. Do this even if there are no signs of discomfort or poisoning.

While you are using it

- Things you must do

- Tell all the doctors, dentists, and pharmacists treating you that you are taking Triconazole Cream.
- Tell your doctor immediately if you become pregnant while using this medication.

- Things you must not do

- Do not take any new medicines without consulting your doctor or pharmacist.
- Do not give Triconazole Cream to anyone else, even if they have the same symptoms or condition as you.
- Do not apply cream near or in the eyes.

- Things to be careful of

Driving and using machines

Be careful driving or operating machinery until you know how Triconazole Cream affects you.

Side Effects

Like all medicines, Triconazole Cream can cause side effects, although not everybody gets them.

Possible side effects include:

- Itching
- Burning feeling
- Stinging
- Redness of the skin
- Dry skin
- Inflamed hair follicles (like small red bumps)
- Unusual hair growth
- Pimples or acne-like rash
- Lightening of the skin
- Rash around the mouth
- Allergic skin reaction
- Skin becoming soft and soggy (especially in skin folds)
- New infection on the skin
- Thinning of the skin
- Stretch marks
- Heat rash (tiny, itchy bumps, especially in hot or sweaty areas)

Any other effects not listed above may also occur in some people. Please refer to your doctor or pharmacist if you experience any other side effects while taking this medication.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and disposal of Triconazole Cream

- Storage

Store at or below 30 °C. Protect from light.

- Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines no longer required. These measures will help to protect the environment.

Product Description

- What it looks like

White smooth cream.

- Ingredient(s)

- Active Ingredient

- Triamcinolone Acetonide
- Econazole Nitrate

- Inactive Ingredient

- Cetostearyl Alcohol
- Cetomacrogol 1000
- Vaseline (White Soft Paraffin)
- Propylene Glycol
- Chlorocresol
- EDTA (Disodium Edetate)
- Purified Water

- MAL number

MAL19921228AZ

Manufacturer & Product Registration Holder

Sunward Pharmaceutical Sdn. Bhd.
No. 9,11 & 17, Jalan Kempas 4,
Taman Perindustrian Tampoi Indah,
81200 Johor Bahru, Johor, Malaysia.
