What Dicomet CZ Cream is used for

It is used to prevent and to treat common skin problems like rashes, eczema, diaper rash and pressure sores (bedsores).

How Dicomet CZ Cream works

The active ingredients in the medicine are dimethicone, calamine, and zinc oxide. Dimethicone has water-resistant properties that helps to protect by forming a barrier that keeps the affected area safe from further damage or irritation.

Meanwhile, calamine and zinc oxide have mild astringent properties that helps to form a light protective layer over the skin to soothe, aid in the healing of the skin, and reduce irritation.

Before you use Dicomet CZ Cream

- When you must not use it

Do not use Dicomet CZ Cream if you are hypersensitive to dimethicone, calamine, zinc oxide or any of the other ingredients of this medicine (listed in Product Description).

- Before you start to use it

You should check with your doctor or pharmacist before using Dicomet CZ Cream.

Pregnancy and Lactation

Please consult your doctor or pharmacist if you are pregnant, planning for pregnancy or breast-feeding before using any medicine.

- Taking other medicines

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use Dicomet CZ Cream

- How much to use

Topical application.

Apply sufficiently to the affected skin area.

- When to use it

Apply Dicomet CZ Cream twice a day or as directed by your doctor or pharmacist.

- How long to use it

Dicomet CZ Cream should be used as long as your doctor or pharmacist recommended.

- If you forget to use it

Apply the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to apply the medicine and skip the missed dose. Do not apply a double dose to make up for the missed dose.

- If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you or anyone else may have applied too much of this medicine or accidentally ingested this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

While you are using it

- Things you must do

- Tell all the doctors, dentists and pharmacists treating you that you are using Dicomet CZ Cream.
- Tell your doctor immediately if you become pregnant while using this medication.

- Things you must not do

- Do not stop using the medicine unless advised by your doctor.
- Do not take any new medicines without consulting your doctor.
- Do not give Dicomet CZ Cream to anyone else, even if they have the same symptoms or condition as you.

- Things to be careful of

If you experience any side effects, irritation, or signs of infection, consult your doctor or pharmacist for advice.

For use on the skin only (not to be swallowed or used inside the body).

Do not apply on open wounds, broken skin or badly inflamed areas.

Avoid putting it near or into the eyes, as it can cause irritation.

Side Effects

There are no side effects reported for the use of Dicomet CZ Cream. Please refer to your doctor or pharmacist if you experience any side effects while taking this medication.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers→ Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and disposal of Dicomet CZ Cream

- Storage

Store at or below 30 °C.

- Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your pharmacist how to dispose of medicines that are no longer required. These measures will help to protect the environment.

Product Description

- What it looks like

A pale pink to cream coloured smooth cream.

- Ingredient(s)

- Active Ingredient

- Dimethicone
- Calamine
- Zinc Oxide

- Inactive Ingredients

- Chlorocresol
- Cetostearyl Alcohol
- Deionised Water
- White Soft Paraffin
- Propylene Glycol
- Cetomacrogol 1000
- EDTA (Disodium Edetate)

- MAL number

MAL19920896X

Manufacturer & Product Registration Holder

Sunward Pharmaceutical Sdn. Bhd.
