Dear Ms Massita,

We only want the those pending in the Quest 2 system (NOT those approved). From our end, we cannot open attachment since one month ago. That's why we need the softcopy for evaluation. As you know that migration of Quest 2 to Quest 3+ will be done very soon. We need to settle all the pending variation by end of June 2016. So, please send the CD to us as soon as possible. Thank you.
