What Eye Mo Regular is used for

It is used to relieve minor eye irritations such as itchiness and burning sensation in the eyes caused by exposure to harsh outdoor environment such as glare, dust, smoke and other airborne pollutants.

How Eye Mo Regular works

Boric Acid has a weak bacteriostatic and fungistatic properties.

It has generally been superseded by more effective and less toxic disinfectants. Boric Acid is used, with Sodium Borate (Borax), as buffer and antimicrobial in eye drop.

Before you use Eye Mo Regular

- When you must not use it

Do not use Eye Mo Eye Regular Drops if you are allergic to any ingredient in this medicine.
