**What is Covee Cream used for**

Covee cream is used for fungal skin infections such as ringworm, athlete's foot, jock itch, white spots, fungal infection of nail and skinfolds.

**How Covee Cream works**

Covee cream contains clotrimazole, an antifungal agent belongs to the group of medicine called imidazoles. It works by inhibiting the biosynthesis of ergosterol, a component for cell wall production; hence altering the permeability of cell membrane of fungi.

**Before you use Covee Cream***- When you must not to use it*

Do not use Covee Cream if you have known hypersensitivity to any ingredients in this medicine.

*- Before you start to use it*

Tell your doctor or pharmacist if:

- you are pregnant or plan to get pregnant.
- you are breast-feeding.

*- Taking other medicines*

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

**How to use Covee Cream***- How much to use*

For topical use only.

Apply thin and evenly to the affected area two or three times daily for 2 to 4 weeks.

Follow all directions given to you by your doctor and pharmacist carefully. They may differ from the information contained in this leaflet. If you do not understand the instructions on the label, ask your doctor or pharmacist for help.

*- When to use it*

Use as directed by your doctor or pharmacist.

*- How long to use it*

Continue taking Covee Cream for as long as your doctor recommends.

*- If you forget to use it*

Consult your doctor or pharmacist on what you should do if you forget to use it.

Apply the cream as soon as possible and then continue the rest of the treatment as usual.

*- If you use too much (overdose)*

No information is available concerning overdosage in human beings following topical application.

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you think you or anyone else may have taken too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

**While you are using Covee Cream***- Things you must do*

- Wash your hands before and after applying the cream.
- Clean and dry the affected area before applying the cream.
- Take your medicine exactly as your doctor has told you.
- Tell all the doctors and pharmacists treating you that you are taking Covee Cream.
- Tell your doctor immediately if you become pregnant while taking this medication.

*- Things you must not do*

- Covee cream is for external use only. Do not put the cream into your mouth.
- Do not exceed the stated dose.
- Do not take any new medicines without consulting your doctor.
- Do not give Covee Cream to anyone else, even if they have the same symptoms or condition as you.

*- Things to be careful of*

Please always consult your doctor or pharmacist before using this product especially when there is a known to hypersensitivity.
