SECURITY LABEL
15 x 7 MM

Each mL contains:
Levetiracetam Ph.Eur 100 mg
Water for Injections Ph.Eur q.s.
Dose: As directed by the Physician.
Unopened: Do not store above 30°C. Protect from light.

Upon dilution: Levetiracetam 100mg/mL concentrate for solution for infusion was found to be physically compatible and chemically stable for at least 24 hours when mixed 0.9% sodium chloride, 5% Dextrose or Lactated Ringer's and stored in PVC bags at controlled room temperature 15-25°C and 2-8 °C.

From a microbiological point of view, unless the method of opening/reconstitution/dilution precludes the risk of microbial contamination, the product should be used immediately. If not used immediately, in-use storage times and conditions prior to use are the responsibility of the user.
