What Elostén Cream is used for

Elostén cream is used on the skin to treat fungal infections. It is also effective against skin infections caused by certain bacteria.

How Elostén Cream Works

Elostén Cream contains active ingredient of econazole nitrate which is an antifungal agent that works by preventing the growth and spread of fungi that cause skin infections. It also possesses some anti-bacterial activity.

Before you use Elostén Cream

-When you must not use it

Do not use this medicine if you are allergic to econazole or any other ingredients of this medicine (listed in Product Description)

-Before you start to use it

Pregnancy and lactation

Please consult your doctor or pharmacist if you are pregnant, planning for pregnancy or breast-feeding before using this medicine.

-Taking Other Medicines

Tell your doctor if you are taking any other medicines, including any that you buy without a prescription from a pharmacy, supermarket or health food shop.

How to use Elostén Cream

-How much to use

Apply a thin layer over the infected areas.

-When to use it

Apply once or twice daily or as directed by your doctor or pharmacist (the frequency will depend on your type of fungal infection).

-How long to use it

Apply Elostén Cream for at least 2 weeks to 1 month or for the duration that the doctor recommends.

-If you forget to use it

Apply the missed dose as soon as you remember. If it is almost time for your next dose, wait until then to apply the medicine and skip the missed dose. Do not apply a double dose to make up for the missed dose.

-If you use too much (overdose)

Contact your doctor immediately or go to the Emergency Department of your nearest hospital, if you or anyone else may have used too much of this medicine. Do this even if there are no signs of discomfort or poisoning. You may need urgent medical attention.

Using too much of the ELOSTEN cream is not likely to cause immediate harm.

However, if you notice irritation or sensitivity reaction, you should stop using it.

While you are using it

-Things you must do

Use this medicine for full prescribed duration to prevent recurrence of fungal infection.

Tell all the doctors, dentists and pharmacists treating you that you are using Elostén Cream.

Tell your doctor immediately if you become pregnant while using this medication

- Things you must not do

Avoid contact with the eyes. If contact occurs, rinse thoroughly with water.

Do not stop using the medicine unless

advised by your doctor.

Do not use any new medicines without consulting your doctor or pharmacist.

Do not give Elostén Cream to anyone else, even if they have the same symptoms or condition as you.

- Things to be careful of

Avoid occlusive dressings unless directed otherwise.

Avoid wearing tight clothing over treated areas.

Practice good hygiene to help in curing the infection or preventing reinfection.

Side Effects

Like all medicines, Elostén Cream can cause side effects, although not everybody gets them.

Visit your doctor or pharmacist immediately if you experience any side effects after using this medicine.

Elostén cream is generally well-tolerated. Some people might experience hypersensitivity reactions, such as burning, itching, stinging, redness, or other signs of skin irritation.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website nppra.gov.my [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)]

Storage and Disposal of Elostén Cream

Storage

Store in a cool dry place below 30°C. Keep the containers tightly closed. Protect from light and freezing. For external use only. Keep medicine out of reach of children.

Disposal

Medicines should not be disposed of via wastewater or household waste. Ask your

ELOSTEN CREAM

Econazole nitrate (1% w/w)

pharmacist how to dispose of medicines
no longer required. These measures will
help to protect the environment.

Product Description

What it looks like
