SALBUTAMOL-4 Axcel® TABLETS

Indication: For the relief of bronchospasm in asthma, chronic bronchitis and other conditions involving airways obstruction.

Dosage: Adults: 1 tablet 3 or 4 times daily. If adequate bronchodilation is not obtained, each single dose may be gradually increased to as much as 2 tablets. In elderly patients or in those know to be unusually sensitive to beta - adreganic stimulant drugs, it is advisable to initiate treatment with 1/2 tablet 3 or 4 times daily.
Children: The following doses should be administered 3 or 4 times daily. 6-12 years: 1/2 tablet. Over 12 years: 1/2 - 1 tablet. The drug is well tolerated by children so that, if necessary, these doses may be cautiously increased. It is dangerous to exceed the stated dose.

Precaution: Caution is required in serious cardiovascular disorders, hyperthyroidism, diabetes mellitus, hypertension and thyrotoxicosis. Prolonged use in high dosage should be avoided as resistance may develop. Unnecessary administration of salbutamol during the first trimester of pregnancy is undesirable.

Please refer to enclosed package insert for more information. Store below 30°C. Protect from light.
