

	 SALBUTAMOL-2 TABLETS Each tablet contains: Salbutamol Sulphate equivalent to Salbutamol 2mg 1000 Tablets		
	Indication: For the relief of bronchospasm in asthma, chronic bronchitis and other conditions involving airways obstruction. Dosage: Adults: 2 tablets 3 or 4 times daily. If adequate bronchodilation is not obtained, each single dose may be gradually increased to as much as 4 tablets. In elderly patients or in those known to be unusually sensitive to beta-adrenergic stimulant drugs, it is advisable to initiate treatment with 1 tablet 3 or 4 times daily. Children: The following doses should be administered 3 or 4 times daily, 2-6 years: half to 1 tablet, 6-12 years: 1 tablet, over 12 years: 1-2 tablets. The drug is well tolerated by children so that, if necessary, these doses may be cautiously increased. It is dangerous to exceed the stated dose. Precaution: Caution is required in serious cardiovascular disorders, hyperthyroidism, diabetes mellitus, hypertension, and thyrotoxicosis. Prolonged use in high dosage should be avoided as resistance may develop. Unnecessary administration of salbutamol during the first trimester of pregnancy is undesirable. Please refer to enclosed package insert for more information. Store below 30°C. Protect from light. KEEP OUT OF REACH OF CHILDREN / JAUHI DARI KANAK-KANAK  KOTRA PHARMA Kotra Pharma (M) Sdn. Bhd.
