

UREA CREAM

Further information can be obtained from pharmacist, physician or the manufacturer.

COMPOSITION:

Urea 10% w/w
Chlorocresol 0.1% w/w as preservative.

PRESENTATION:

White to off-white coloured, water-miscible cream.

INDICATIONS:

It is used in ichthyosis and hyperkeratotic skin disorders i.e. dry, scaling and itchy skin conditions, such as:

- contact irritant dermatitis (housewife dermatitis) which is caused by detergent, shampoo, highly alkaline soap or chemicals.
- acute and chronic allergic eczemas.
- infantile eczema.
- 'winter itch' and 'winter chapping'.

PHARMACOLOGY:

Mechanism of Action:

Urea is claimed to have anaesthetic, bactericidal, and keratolytic properties. These properties are probably due to its hydration effects.

DIRECTION FOR USE:

Apply to the affected area as required.

CONTRAINDICATION:

No known contraindication when used externally. Avoid application to inflamed skin or exudative lesion.

PRECAUTION:

Not to be taken orally. For external use only.

SIDE EFFECTS:

Axcel Urea Cream is usually well tolerated when used externally. Occasionally, it may cause stinging and burning sensation especially to patients with sensitive skin.

OVERDOSAGE AND TREATMENT:

Overdosage from external application is unlikely as urea is not easily absorbed from the skin. However, accidental ingestion of Axcel Urea Cream may cause irritation to the gastric mucosa. Nausea and vomiting may occur. In such cases, symptomatic treatment is to be given immediately.

STORAGE:

Keep container well closed. Store below 30°C. Protect from light.

**KEEP OUT OF REACH OF CHILDREN
JAUHI DARI KANAK-KANAK**

PACK QUANTITIES:

Available in aluminium tube of 20gm.
