What Axcel Mometasone 0.1% Cream is used for

Axcel Mometasone 0.1% Cream is used for the relief of the inflammatory and pruritic manifestations of corticosteroid responsive dermatoses, such as psoriasis and atopic dermatitis.

How Axcel Mometasone 0.1% Cream works

Mometasone Furoate is a synthetic corticosteroid used topically to reduce inflammation of the skin.

Before you use Axcel Mometasone 0.1% Cream

– *When you must not use it*

Do not take Axcel Mometasone 0.1% Cream if:

- you are allergic or hypersensitive to Mometasone Furoate, other corticosteroid or any component of this medication.

– *Before you start to use it*

Tell your doctor if:

- you are pregnant or nursing your baby.
- you are allergic to any medicines.

– *Taking other medicines*

You should tell your doctor if you are taking any medicine as it may interact with your Axcel Mometasone 0.1% Cream.

How to use Axcel Mometasone 0.1% Cream

– *How much to use*

Apply a thin film of cream to the affected skin areas once daily until the lesion heals or for duration of three weeks, whichever is sooner.

– *When to use it*

Your doctor will decide when it is appropriate for you to take Axcel Mometasone 0.1% Cream according to the type of infection you have.

How long to use it

- Take this medicine as stated in the leaflet without exceeding the dosage.
- Follow any recommendations and advices from your doctor or pharmacist.

– *If you forget to use it*

If you forget to use your cream at the right time, use it as soon as you remember, then carry on as before.

If you use too much (overdose)

You must inform your doctor immediately if you have taken too much Axcel Mometasone 0.1% Cream.

While you are using it

– *Things you must do*

- Discuss with your doctor or pharmacist the dos' and don'ts' while taking this medicine.
- Tell your doctor if unexpectedly you need to take any other medicines.
- Take the Axcel Mometasone 0.1% Cream according to the recommended dosage.
- Tell your doctor or pharmacist if you experience any side effects that are not listed in this leaflet.

– *Things you must not do*

- Do not take your Axcel Mometasone 0.1% Cream more than the suggested frequency in a day.

– *Things to be careful of*

- If irritation or sensitization develops with the use of Axcel Mometasone 0.1% Cream, treatment should be discontinued.
- This product is not for ophthalmic use.

Side effects

Like all medicines, Axcel Mometasone 0.1% Cream can cause side effects although not everybody gets them. You are advised to consult doctor/ pharmacist for further information. The following side effects have been reported:

- Local adverse reactions reported very rarely include burning, pruritus, tingling/stinging and sign of skin atrophy.
- The following local adverse reactions have been reportedly infrequently with the use of other topical corticosteroids: irritation, hypertrichosis, hypopigmentation, perioral dermatitis, allergic contact dermatitis, maceration of the skin, secondary infection, striae and miliaria.

You may report any side effects or adverse drug reactions directly to the National Centre for Adverse Drug Reaction Monitoring by visiting the website npra.gov.my [Consumers → Reporting Side Effects to Medicines (ConSERF) or Vaccines (AEFI)].

Storage and disposal of Axcel Mometasone 0.1% Cream

– *Storage*
